EDUCATION

McMaster University

Honours Computer Science Co-op (B.A.Sc.), Minor in Economics

Hamilton, Ontario

Sept 2021 - Present (Expected graduation May 2026)

CERTIFICATES

Microsoft Certified: Power BI Data Analyst Associate (Score: 803/1000) (Jan 2024-Jan 2025)

mabl Skills Certification: Foundations (Jul 2025)

EXPERIENCE

Software Developer Intern - Frontend and Backend

May 2024 – Aug 2025

Evertz Microsystems Ltd.

Burlington, Canada

- Contributed to a cross-functional team of 12 engineers (frontend, backend, and QA) to deliver high-quality features on Evertz's cloud platform, EIO, used by broadcast clients across 100+ countries.
- Utilized **Angular and TypeScript** to build, maintain, and enhance responsive, user-friendly frontend components, ensuring alignment with project requirements and design specifications.
- Integrated **AWS services (Lambda, S3, DynamoDB)** in occasional backend tasks, supporting scalable and reliable cloud-based workflows.
- Utilized **mabl** in our CI/CD pipeline to develop robust end-to-end test suites, boosting test coverage by 90%.
- Optimized frontend code and improved load time performance on EIO, contributing to a smoother user experience across the platform's core modules.

Front-end Developer

May 2023 – Aug 2023

Harmonysoft

Hanoi, Vietnam

- Developed a music center management user interface to **manage up to 200 students**, teachers, classrooms, and types of equipment, resulting in a **time reduction of 70% of administrative tasks**.
- Incorporated **HTML, CSS, JavaScript, and ReactJS/ React Native** to build web/ mobile applications, and used **Figma** to design mobile application.

PROJECTS

RTSL - Real Time Sign Language | *Python, PyTorch, Vue, Mediapipe, NLP, Hugging Face*

Sept 2025 – Apr 2026

- Built a **real-time** ASL translation pipeline that recognizes continuous signing from live video and converts it into structured gloss sequences using a **Temporal Graph Convolutional Network (TGCN)** with sliding-window inference for temporal modeling of hand and body landmarks.
- Used **Glossa-BART transformer** for sequence-to-sequence translation of ASL glosses to natural English text, achieving 87% semantic similarity with custom conversational ASL glosses.
- Developed a **browser extension** for Zoom/Google Meet/Microsoft Teams that provides real-time ASL-to-English translation, enabling accessibility for deaf and hard-of-hearing participants in online meetings through live captioning of signed content.

The Dill Banh My | *TypeScript, AWS, ReactJS, Material UI, HTML, CSS*

Jun 2025 – Present

- A serverless e-commerce web app using **React**, hosted on **AWS Amplify**, enabling customers to place orders for Vietnamese bánh mì and drinks through a modern, responsive UI.
- Developed an admin dashboard with protected **REST** endpoints (API Gateway + Lambda) to perform CRUD operations on menu sections.
- Configured end-to-end CI/CD in AWS Amplify, automating deployment of both the frontend and backend.

SKILLS

Programming Languages: Python, Java, SQL, JavaScript, TypeScript HTML/CSS, C

Libraries: ReactJS, React Native, Numpy, PyTorch, scikit-learn

Frameworks: Angular

Others: Git, Jira, mabl, REST API, VS Code, Eclipse, Figma, Data Structures and Algorithms, Software Design, Windows, macOS, Linux

MS Office: Power BI, Word, PowerPoint, Excel, Outlook.
